Management Discussion & Analysis Report

Economic Overview

Year 2010 saw the Indian economy rebound robustly from the global financial crisis - in large part because of strong domestic demand and as a result, growth exceeded 8% year-on-year in real terms. The strong level of economic growth achieved in India in recent years has led to an expansion of industry, commerce and per-capita income. This in turn has fuelled demand for infrastructure services including energy, transportation, telecom, water supply and other urban infrastructure.

Construction Industry – Structure

The Indian construction industry plays a pivotal part in the national economic growth. It has witnessed rapid growth over the last few years, clearly indicating the benefit of securing “industry” status. The Construction Sector is strongly linked to the overall growth and development of the economy. The industry is the second largest employer after agriculture in the country. The investment in the Construction Sector accounts for nearly 11 percent of India’s Gross Domestic Product (GDP) and nearly 50 percent of its Gross Fixed Capital Formation (GFCF). There has been increased emphasis on involving private sector for infrastructure development through public private ownerships and mechanism like BOT (Build Operate Transfer), BOOT (Build Operate Own Transfer) and BOLT (Build Operate Lease Transfer).

Construction sector may be broadly classified into the following categories:

- Real estate construction investments (i.e. residential and commercial construction)
- Infrastructure construction investments (i.e. roads, urban infrastructure, power, irrigation and railways)
- Industrial construction investments (i.e. steel plants, oil pipelines and refineries)

Growth in the construction industry is expected to be led by growth in infrastructure and industrial construction investments, which are expected to grow at a faster rate than real estate construction investments.

Infrastructure Industry – Developments and Opportunities

The Indian infrastructure has to play a key role in the nation’s progress towards achieving the status of “developed nation” from “developing nation”. However, inadequacies have hitherto been a constraint in realising the growth potential of the GDP of the nation. The Government has realised this and embarked upon an ambitious programme of infrastructure development and investment for strengthening and consolidating recent infrastructure initiatives. Initiatives have been taken to enhance the investments at all levels i.e. Central Government, State Government as well as Private sector in each major infrastructure sector.

The programmes that ensure strengthening and consolidating recent infrastructure-related horizontal initiatives, are Bharat Nirman for building rural infrastructure, as well as sectoral initiatives and strategies, such as the Rajiv Gandhi Grameen Vidyutikaran Yojana, Accelerated Power Development and Reforms Programme, Jawaharlal Nehru National Urban Renewal Mission, National Highways Development Programme, etc.

Highways and Roads

For a country of India’s size, an efficient road network is necessary both for national integration as well as for socio-economic development. Road connectivity forms the backbone for economic and social development of any country through connectivity and opening up the backward regions to trade and investment. However, to their importance to the national economy, the road network in India is grossly inadequate.

The existing network is unable to cope up with high traffic density. Currently, at 3.3 million km, India’s road network is the second largest in the world. The road network comprises 70,934 km of national highways, 1,31,899 km of state highways, and 31,20,000 km of major district, rural and other roads. Road density in terms of population is only 2.75 km per 1,000 people compared to the world average (6.7). Indian roads carry about 80% of passenger traffic and 65% of freight traffic. Further, only 17% of the national highways and 1% of the state highways are four-lane. About 53% of the national highways and 22% of the state highways are double-lane. Moreover, the number of vehicles has been growing at an average pace of 10.16% per annum over the last five years.

Our National highways constitute only 2% of the total road network but they carry nearly 40% of the total traffic. State highways constitute about 13% of the road length and carry 40% of the traffic.

The Indian Government has set ambitious plans for upgrading of the National Highways in years to come. The Eleventh Five Year Plan targets at 6-lane 6500 km in GQ; 4-lane 6736 km NS-EW, 4-lane 20000 km; 2-lane 20000 km; 1000 km Expressway.

The National Highways Development Project (NHDP)

National Highway Development Project (NHDP) comprising of the Golden Quadrilateral and North-South & East-West Corridors, is implemented through National Highways Authority of India, an autonomous body formed through an Act of Parliament. NHDP is India’s largest ever highway project. The Government of India launched major initiatives to upgrade and strengthen national highways through various phases of NHDP which are as under :

NHDP Phase I – NHDP Phase I was approved by Cabinet

Committee on Economic Affairs (CCEA) in December 2000 at estimated cost of Rs. 30,000 Crores, comprises mostly of Golden Quadrilateral (5,846 km), NS-EW Corridor (981 Km), port connectivity (356 km) and others (315 km).

NHDP Phase II – NHDP Phase II was approved by CCEA in December 2003 at an estimated cost of Rs. 34,339 Crores (2002 prices) comprises mostly of NS-EW Corridor (6,161 km) and other National Highways (486 km), the total length being 6,647 km.

Under NHDP Phase I and II, 5560 km. have been completed and 1161 km are under implementation upto February 2011.

NHDP Phase III – Government has approved upgrading and 4 laning of 4,035 km of national Highways of BOT basis at an estimated cost of Rs. 22,207 Crores (2004 Prices). In April 2007, Government approved upgradation and 4 laning of 8074 km at an estimated cost of Rs. 54,339 Crores. Upto February 2011, 2135 km have been completed and 5669 km are under implementation.

NHDP Phase IV – CCEA has approved upgradation of 20,000 km into two-lane highways, at an indicative cost of Rs. 278 billion.

NHDP Phase V - CCEA has approved six laning of 6,500 km of existing 4 lane highways under this Phase. Upto February 2011, 490 km have been completed and 1922 km are under implementation.

NHDP Phase VI – CCEA has approved 1000 km of expressways under this Phase at an estimated cost of Rs. 16,680 Crores. These expressways would be constructed on new alignments.

NHDP Phase VII - CCEA has approved 700 kms of Ring Roads, Bypasses and flyovers and selected stretches at an estimated cost of Rs. 16,680 Crores. Upto February 2011, 41 km were under implementation.

Most of the NHDP projects have been developed or are under development on Public Private Partnership (PPP) basis through Build Operate and Transfer (BOT)-Annuity and Build Operate and Transfer (BOT) - Toll mode.

Investment projected for the Eleventh Five Year Plan

The Eleventh Plan emphasised the importance of investment in infrastructure for achieving a sustainable and inclusive growth of 9 to 10 per cent in GDP over the next decade. The Eleventh Five Year Plan places high priority to the expeditious completion of works approved under the different phases of the NHDP. The total investment in infrastructure during the first two years of the Eleventh Plan has risen to Rs. 3,03,807 Crores in 2007-08 and Rs. 3,59,192 Crores in 2008-09 as against the earlier projected level of Rs. 2,70,273 Crores and Rs. 3,21,579 Crores respectively. Taking account of developments in the first two years, the earlier projections for the entire Eleventh Plan period have been revised and it is now estimated that the total investment in infrastructure in the Eleventh Plan would be Rs. 2.06 Million Crores.

MORTH has decided to speed up the award and implementation of NHDP. This is likely to increase the investment during the last two years of the Eleventh Plan, but the major build up in expenditure consequent to this acceleration will be in the Twelfth Plan.

Investment Assessed for the Twelfth Five Year Plan

According to a publication of the Secretariat for Infrastructure, Planning Commission, Government of India, preliminary assessment suggest that investment in infrastructure during the Twelfth Plan (2012-17) would be about Rs. 4.10 Million Crores to achieve a share of 9.95 percent as a proportion of GDP.

The Government of India has already initiated number of policies to attract private investments in the Road Sector, such as :

- Carrying out all preparatory work including land acquisition and utility removal. Right of way (ROW) to be made available to concessionaries free from all encumbrances.
- NHAI/GOI to provide capital grant upto 40% of project cost to enhance viability on a case to case basis.
- 100% tax exemption for 5 years and 30% relief for next 5 years, which may be availed of in 20 years.
- Concession period allowed upto 30 years.
- Redrafting of Arbitration and Conciliation Act, 1996 based on UNICITRAL provisions
- Allowing entrepreneurs to collect and retain tolls in BOT projects.
- Duty free import of specified modern high capacity equipment for highway construction.

There are different contract models currently being adopted for Public Private Partnership (PPP) in developing India's infrastructure facilities which vary in the distribution of risks and responsibility between the public and the private sectors.

Corridor Management

The completion of construction of many sections of National Highways has necessitated the corridor management through operation and maintenance contracts. The scope of work, among other things, includes road maintenance, road property management, incident management, traffic management, toll fee collection and engineering improvements. MBL has an early mover advantage in this sector.

Public-Private Partnership (PPP)

Historically, investments in the infrastructure space, particularly in the highways, were being made by the Government mainly because of the large volume of resources required, long gestation, uncertain returns and associated externalities. The galloping resource requirements, concern for managerial efficiency and consumer responsiveness have led in recent times to an active involvement of the private sector.

It has been decided that all the sub-projects in NHDP Phase-III to Phase-VII would be taken up on Public-Private Partnership (PPP) basis in Build Operate and Transfer (BOT) mode. To this end, and to encourage participation of private sector, the Department of Road Transport and Highways has laid down comprehensive policy guidelines for private sector participation in the highway sector.

Under PPP mechanism Government offers two models viz. Build – Operate – Transfer (Toll) Model and Build – Operate – Transfer (Annuity). Most of the projects are awarded on these two models.

Out of the two models, BOT (Toll) has been preferred, accounting for 75% of the total private investment. The Government has further modified this model to Design-Build-Finance-Operation-Transfer (DBFOT), wherein Concessionaire also designs the project.

With the increasing investment in infrastructure in India, the share of private sector in the total investment on infrastructure has increased rapidly. The contribution of private sector in total infrastructure investment in each of the first two years of 11th Plan (2007-2012) was around 34%. This is higher than the 11th Plan target of 30%, and 25% achieved in 10th Plan period. It is expected to rise to 36% by end of 11th Plan and 50% during the 12th Plan (2012-2017).

MBL has successfully implemented the project of Seoni -

Balaghat - Gondia Road on BOT basis through SPV, AAP Infrastructure Ltd., a wholly owned subsidiary of the Company. The Company expects good opportunities in PPP Projects.

The Consortium led by the Company has been awarded project of "Four / Two Laning of Rimuli-Roxy-Rajamunda of NH – 215 in the State of Orissa" by NHAI under Phase – III of National Highways Development Program. Project will be executed on a Design, Build, Finance, Operate & Transfer (Toll) basis with a concession period of 19 years including construction period of 910 days. NHAI will give a total grant of Rs. 229.95 Crores during the construction period by way of equity support. Financial Closure of this project has been achieved. The project is in the prime iron ore mining belt.

Special Accelerated Road Development Programme in the North-Eastern Region

The Special Accelerated Road Development Programme for the North-Eastern region (SARDPNE) aims at improving the road connectivity to State capitals, district headquarters and remote places of the NE region. It envisages two/ four laning of National Highways and two-laning/improvement State roads. It covers 9,760 km.

The said programme is divided into two phases, Phase A and Phase B. Phase A has been approved at an estimated cost of Rs. 16,286 Crore.

In addition to the Roads and Highways Sector as discussed above, Airports, Ports and Urban Infrastructure development plans are good business opportunities available.

Our Business Strategy

Our primary focus is on continuous improvement and consolidation of our position in the construction and infrastructure development & management industry. We intend to achieve this through an integrated business model by implementing the following strategies:

Target specific high potential projects

We intend to concentrate on projects wherein we believe there exists high potential for growth and where we enjoy competitive advantage. We believe that our expertise and experience in development, operation, and maintenance of road infrastructure projects will provide us with an advantage in pursuing growth opportunities in this fast growing sector.

We intend to focus on operation and maintenance of roads, where we have an early mover advantage and the margins in such activities are comparatively high.

Consolidating our position in the infrastructure space

We intend to consolidate our position in the infrastructure space and may foray into Mining, Power, Railway, Airport, Irrigation, Urban Infrastructure, Industrial Infrastructure, Water, Ports, SEZs and other infrastructure projects.

Joint Venture with reputed players for increasing the bid capacity for larger projects and with regional players to reap the benefits of our experience

We continue to develop and maintain strategic alliance and form project specific alliances to increase our bid capacity. We would also continue to form project specific joint ventures with regional players whose resources, skills and strategies are complementary to our business and would help us to reap the benefits of our experience.

Continue to enhance our project execution capabilities

We believe that we have developed a reputation for undertaking challenging infrastructure and construction projects and

completing them in timely manner. We intend to continue to focus on performance and project execution in order to maximise client satisfaction. We leverage technologies, designs and project management tools to increase productivity and maximise asset utilisation in capital-intensive activities. We continue to optimise operating and overhead costs to maximise our operating margins. Our ability to effectively manage projects will be crucial to our continued success as a recognised infrastructure company. We believe that we stand distinguished from our competitors because of our management strength and in-house development, construction, operation and maintenance capabilities. We intend to continuously strengthen our execution capabilities by adding to our existing pool of professional team, attracting fresh talent, and facilitating continuous learning with in-house and external training opportunities.

Bid for, win and operate BOT and Annuity projects.

The government has planned for projects on a BOT or annuity basis. We believe that such projects will become increasingly more prevalent in the coming years because of the government's reliance on the public-private-partnership (PPP) model. BOT or annuity projects generally provide better operating margins because of the added overall control of project costs that can be exerted by the contractor. Additionally BOT projects offer the possibility of higher revenues to the contractor by virtue of better than anticipated use of the asset. We intend to increase our focus on BOT and annuity projects by leveraging our technical and financial credentials. Avenues for raising long term funds will be explored further to increase the pace of growth. It will also increase our ability to form strategic alliances with corporate developers and financial institutions, which we intend to do more of on a project-by-project basis enhancing our prospect to bid for and execute such projects.

Encashing relationship with steel manufacturing companies and previous experience of stone aggregates mining.

Since the inception of the Company, we have maintained cordial relations with the steel manufactures and also reasonable experience in mining. We may enter into mining of minerals such as iron ore, coal etc. in future subject to availability of mines and the then prevailing Government Rules and Regulations.

Threats, Risks and Concerns

Worldwide, the construction sector is characterised by a plethora of players and the Indian scenario is no different. There are many construction companies currently operating in India.

The Construction industry is marked with low entry barriers, with several regional and national players dotting the competitive landscape. As a result, despite the strong demand scenario and a definite surge in flow of orders, the margins in the sector have remained low. That apart, the working capital cycle has elongated significantly for many companies over a period of time. Thus, construction players have lacked the bargaining power not only in terms of pricing but also in negotiating payment terms in the contracts. Major concerns include decrease in demand, increase in prices of construction material, lack of credit, increase in cost of funds, etc.

The key risks for the construction sector are increasing commodity prices, increasing interest rates and funding constraints. While infrastructure spending will accelerate, tighter credit conditions may result in a slowdown of private sector activity.

Your Company minimises risks by micro-management of its

elements and has developed management and organisational skills to protect it from adverse situations.

Outlook

With more than a decade's track record of proven performance and immense opportunities available in the core competency area of the Company, a higher growth business plan has been adopted by the Company. The Company has strengthened its management, capital and human resources. The order book of the Company is on continuous growth path.

We shall be very selective and cautious on the BOT space. We shall encash upon our position in the Industry to take up more Public Private Partnership Projects. We see tremendous growth opportunities in this segment.

The early mover's advantage in the Operation & Maintenance Segment will be further consolidated and the huge opportunities available to the Company in this segment will be encashed for rapid growth and higher profits.

The Company has opportunities in Mining, Power, Railway, Airport, Irrigation, Urban Infrastructure, Industrial Infrastructure, Water, Ports, SEZs and other infrastructure projects. We shall selectively foray in these segments.

Internal Control Systems And Their Adequacy

The Company has laid down guidelines, procedures and policies for better management control, which are periodically tested and supplemented by an extensive internal audit program. Significant findings are placed before the Audit Committee of the Board and the corrective measures are recommended for implementation. In the opinion of the management, the existing internal checks & controls are adequate.

Financial Review

The following numbers reflect the Company's performance on standalone basis during the year under review:

- 26.44 % growth in gross block
- 57.58 % growth in revenues
- 52.07 % growth in EBDITA
- 76.59 % growth in post-tax profit

Revenue, Profit and Profitability

The Company's revenue grew from Rs. 62954.28 lacs in 2009-2010 to Rs. 99205.70 lacs in 2010-2011 while the EBDITA grew from Rs. 8421.95 lacs in 2009-2010 to Rs. 12807.35 lacs in 2010-2011. The EBDITA margin is 12.91 per cent in 2010-11. MBL recorded a post-tax profit of Rs. 6032.28 lacs – up from Rs. 3416.05 lacs. The Directors have recommended

a dividend of Rs. 2.50 per equity share of Rs. 10 each.

Cost analysis

In road construction, the revenue that could be earned from a particular project is frozen at the beginning of the contract (under normal circumstances), making cost management critical for viability. The Company's total expenditure increased 57.17 percent, in quantum terms to Rs. 90212.34 lacs in 2010-2011 from Rs. 57399.48 lacs in 2009-2010, and as a proportion of total income, it has reduced marginally from 91.18 per cent to 90.93 per cent.

Capital Employed

The Return on Capital Employed is 18.53 percent in 2010-2011.

Own funds

The Company funds its business activities both through internal accruals and external borrowings. While the networth of the Company constituted 55.15 percent of the total capital employed, loan funds constituted the rest. The networth increased steadily on account of continuous profit accretion and capital infusion during the year, enabling it to fund operations more through retained earnings than external borrowings.

Gross block

The gross block of a construction company usually comprises of high-grade equipment (imported and indigenous). At MBL, over 89 percent of the gross block comprised of plant and

machinery worth Rs. 13032.61 lacs as on 31 March 2011.

The percentage of net block to gross block was 73.53 percent at the end of 2010-2011, compared to 72 percent in 2009-10, indicating the newness of its assets.

Working capital management

The working capital of the Company constituted 64.59% of the total assets employed in the business as on 31st March 2011. The current ratio of 2.16 and quick ratio of 1.39 reflected the Company's comfortable liquidity position for the year.

The Members of
MBL Infrastructures Limited

We have examined the compliance of conditions of Corporate Governance by MBL Infrastructures Limited ("the Company") for the year ended on 31st March, 2011, as stipulated in Clause 49 of the Listing Agreement of the Company with the stock exchanges in India.

The compliance of conditions of Corporate Governance is the responsibility of the Company's management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above mentioned Listing Agreement, *except Clause 49(II)(A)(iv), i.e. the condition regarding attendance of the Audit Committee Chairman at the last Annual General Meeting of the Company.*

The Registrar and Share Transfer Agent of the Company has certified the number of complaints received during the year from the investors and the number of complaints resolved during the year and that no complaint was pending as at the year end and that no complaint was unattended / pending for more than 30 days.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

To
**The Members of
MBL Infrastructures Limited.**

1. We have audited the attached Balance Sheet of M/s MBL Infrastructures Limited, as at March 31, 2011 and the related Profit and Loss Account annexed thereto and the Cash Flow Statement for the year ended on that date annexed thereto. These Financial Statements are the responsibility of the Company's Management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An Audit includes examining, on test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003 issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Companies Act, 1956, we enclose in the Annexure a Statement on the matters specified in Paragraphs 4 and 5 of the said Order.
4. Further to our comments in the Annexure referred to in paragraph (3) above, we report that:
 - a) We have obtained all the information and explanations, which, to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b) In our opinion, proper books of accounts as required by Law, have been kept by the Company so far as appears from our examination of those books.
 - c) The Balance Sheet, the Profit and Loss Account and the Cash Flow Statement dealt with by this report are in agreement with the books of accounts as submitted to us.

- d) In our opinion, the Balance Sheet, the Profit and Loss Account and the Cash Flow Statement dealt with by this report have been drawn up in compliance with the Accounting Standards referred to in sub-section (3C) of Section 211 of the Companies Act, 1956.
- e) On the basis of written representations received from the Directors as on March 31, 2011 and taken on record by the Board of Directors, we report that none of the Directors is disqualified as on March 31, 2011 from being appointed as a director in terms of clause (g) of sub-section (1) of Section 274 of the Companies Act, 1956.
- f) In our opinion and to the best of our information and according to the explanations given to us, the said accounts read together with the Significant Accounting Policies and notes thereon, give the information required by the Companies Act, 1956 in the manner so required and give a true and fair view, in conformity with the accounting principles generally accepted in India :
 - i) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2011;
 - ii) in the case of the Profit and Loss Account, of the profit of the Company for the year ended on that date; and
 - iii) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Annexure to the Auditors' Report

Referred to in paragraph 3 of our report of even date

1. In respect of Fixed Assets :

- (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets on the basis of available information.
- (b) As explained to us, all the fixed assets have been physically verified by the management at reasonable intervals and in accordance with a phased programme of verification, which, in our opinion, is reasonable, considering the size and nature of the business. No material discrepancies were noticed on such verification.
- (c) In our opinion, the Company has not disposed off a substantial part of its fixed assets during the year and the going concern status of the Company is not affected.

2. In respect of Inventories :

- (a) As explained to us, inventories have been physically verified by the management at the end of the year. In our opinion, the frequency of verification is reasonable having regard to the size of the Company and the nature of its business.
- (b) The procedure of physical verification of inventories followed by the management in our opinion is reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) On the basis of our examination, we are of the opinion that the Company is maintaining proper records of inventory. As explained to us, there were no material discrepancies noticed on physical verification of inventories as compared to the book records.

3. (a) The Company has given interest free loan to one company covered under the register maintained under Section 301 of the Companies Act, 1956.

The year end balance of the above loan is Rs. 650.26 Lacs. The terms and conditions of such loans are prima facie not prejudicial to the interest of the Company. The loan is repayable as per stipulations. The maximum amount outstanding during the year was Rs. 757.13 Lacs.

- (b) The Company has not taken any loans, secured or unsecured, from companies, firms or other parties covered under register maintained under Section 301 of the Companies Act, 1956.
4. In our opinion and according to explanations given to us, there is an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchase of inventory, fixed assets and sale of inventory. During the course of our audit, we have not observed any continuing failure to correct major weakness in the internal control system.
5. According to the information and explanations given to us, we are of the opinion that the particulars of the transactions, if any, made in pursuance of the contract or arrangements that need to be entered into the register maintained under Section 301 of the Companies Act, 1956 have been so entered.
6. According to the information and explanations given to us, the Company has not accepted any deposits from the public so far upto 31st March 2011. Therefore, the provisions of clause (vi) of Paragraph 4 of the Order are not applicable to the Company.
7. In our opinion, the Company has an internal audit system in commensurate with its size and the nature of its business.
8. To the best of our knowledge the Central Government has not prescribed the maintenance of cost records under Section 209(1)(d) of the Companies Act, 1956 for any of the products of the Company.

9. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company has generally been regular in depositing, during the year, the undisputed statutory dues including, Income Tax, Sales Tax, Cess and other statutory dues as applicable, with appropriate authorities.
- (b) According to the information and explanations given to us, no undisputed amount is payable in respect of Income Tax, Wealth Tax, Sales Tax, Customs Duty, Excise Duty, Cess and other material statutory dues, were in arrears, as at 31st March, 2011 for a period of more than 6 months from the date they became payable.
10. The Company does not have accumulated losses as at March 31, 2011 and it has not incurred any cash losses during the financial year ended on that date and in the immediately preceding financial year.
11. Based on our audit procedures and on the information and explanations given by the management, we are of the opinion that the Company has not defaulted in repayment of dues to the banks.
12. According to the records of the Company, the Company has not granted any loans or advances on the basis of security by way of pledge of shares, debentures or other securities.
13. In our opinion, the Company is not a chit fund / nidhi / mutual benefit fund / society. Therefore, the provisions of clause (xiii) of Paragraph 4 of the Order are not applicable to the Company.
14. In our opinion, the Company is not dealing in or trading in shares, securities, debentures, and other investments. Accordingly, the provisions of clause (xiv) of Paragraph 4 of the Order are not applicable to the Company.
15. According to the information and explanations provided by the management, the terms and conditions of the

guarantees given by the Company for loans taken by others from Banks or financial institutions are not prejudicial to the interest of the Company.

16. On the basis of review of utilisation of funds pertaining to term loans on overall basis and related information as made available to us, the term loans taken by the Company have been applied for the purposes for which they are obtained.
17. On the basis of review of utilisation of funds on overall basis, related information as made available to us and as represented to us by the management, the funds raised on short-term basis have not been applied during the year for long term investment.
18. The Company has not made any preferential allotment of shares to parties or companies covered in the register maintained under Section 301 of the Companies Act, 1956.
19. According to the records the Company, the Company has not issued any debentures during the year.
20. The Company has not raised any monies by way of public issues of equity shares during the year.
21. In our opinion and according to the information and explanations provided by the management, no material fraud on or by the Company has been noticed or reported during the course of our audit.

Schedules to the Accounts

as at 31st March, 2011

Schedule 21 SIGNIFICANT ACCOUNTING POLICIES & NOTES TO THE ACCOUNTS

1 Significant Accounting Policies :

a. Basis of Preparation of Financial Statements

- (i) The financial statements have been prepared under the historical cost convention (other than certain Fixed Assets which are stated at revalued amount) and in accordance with the generally accepted accounting principles and the provisions of the Companies Act, 1956.
- (ii) The Company follows mercantile system of accounting and recognises income and expenditure on accrual basis.

b. Use of Estimates

The preparation of Financial Statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the reported amounts of income and expenses and disclosure of contingent liabilities at the date of the financial statements and the result of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

c. Revenue Recognition

- (i) Sale is recognised on despatch of goods and net of Value Added Tax (VAT).
- (ii) In respect of construction/ project related activity, the Company follows Percentage of Completion Method. Percentage of Completion is determined by survey of work performed / physical measurement of work actually completed at the Balance Sheet date taking into account Contractual Price/ Unit Rates and revision thereto.
- (iii) Revenue in respect of claims is recognised to the extent the Company is reasonably certain of their realisation.
- (iv) Other operational income is recognised on rendering of related services, as per the terms of the contracts.
- (v) Other items of income are accounted as and when the right to receive arises.

d. Each Contract is recognised as a Profit Centre. Payments/ reimbursements under the same are grouped under Direct and Other Expenses.

e. Fixed Assets and Depreciation

- (i) Fixed Assets are stated at their original cost (other than certain Fixed Assets which are stated at revalued amount). Cost includes acquisition price, attributable expenses and pre-operational expenses. Fixed Assets retired from active use are valued at net realisable value.
- (ii) Depreciation on fixed assets is provided on straight line method at the rates and in the manner prescribed in Schedule XIV to the Companies Act, 1956. In case of impairment, if any, depreciation is provided on the revised carrying amount of the assets over their remaining useful life.
- (iii) Assets acquired on Equipment Finance (hire purchase) are stated at their cash values.
- (iv) Lease hold land is amortised over the period of lease.

f. Investments

Long term Investments are valued at cost. Provision for diminution in the value of long term investments is made only if such decline is other than temporary.

g. Foreign Currency Transactions

- (i) The reporting currency of the Company is the Indian Rupee.
- (ii) Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction.
- (iii) Monetary items denominated in foreign currencies, if any, at the end of the year are restated at year end rates.
- (iv) Non monetary foreign currency items are carried at cost.

Schedules to the Accounts

as at 31st March, 2011

Schedules to the Accounts

as at 31st March, 2011

Schedule 21 SIGNIFICANT ACCOUNTING POLICIES & NOTES TO THE ACCOUNTS (Contd.)

(v) Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Profit and Loss account.

h. Leases

The Company's significant leasing arrangements are in respect of operating leases for premises and quarries for varying periods and the lease can be renewed as per mutual agreement. The aggregate lease rents payable are charged as Rent in the Profit and Loss Account. There is no restriction or contingent rent in the lease agreements. All leases are cancelable in nature.

i. Inventories

Stock of goods is valued at cost or net realisable value whichever is lower. Cost of inventories is ascertained on FIFO basis.

j. Taxes on Income

- Provision for current tax is made after taking into consideration benefits admissible under the provision of the Income Tax Act, 1961.
- Deferred Tax resulting from "timing difference" between book and taxable profit for the year is accounted for using the tax rates and laws that have been enacted or substantively enacted as on the Balance Sheet date. The deferred tax asset is recognised and carried forward only to the extent that there is reasonable certainty that the assets will be adjusted in future. The carrying amount of Deferred Tax Assets are reviewed at each Balance Sheet Date. In case of unabsorbed depreciation and losses, deferred tax assets are recognised and carried forward only to the extent there is a virtual certainty that the asset will be adjusted in future.

k. Employees' Benefits

- All employees benefits payable wholly within twelve months of rendering the service such as salaries, wages, short term compensated absences, etc. and the expected cost of bonus, ex-gratia are recognised in the period in which the employees render the related services.
- Retirement benefit in the form of Provident Fund is a defined contribution scheme and the contributions are charged to the Profit and Loss Account of the year when the contributions to the respective funds are accrued. Gratuity liability is a defined benefit obligation and is provided for on the basis of actuarial valuation made at the end of each financial year. Short term compensated absences are provided for based on estimates. Other long term benefits being liability for leave encashment are provided for based on actuarial valuation at the year end. Actuarial gains/losses are immediately taken to profit and loss account and are not deferred.

l. Accounting for Joint Venture Contracts

- Contracts executed in joint Venture under work sharing arrangement (consortium) are accounted in accordance with the accounting policy followed by the Company as that of an independent contract to the extent work is executed.
- Assets, liabilities and expenditure arising out of contracts executed wholly by the Company pursuant to a joint venture contract are recognised under respective heads in the financial statements. Income from the contract is accounted net of joint venturer's share under turnover in these financial statements.
- Share of turnover attributable to the Company in respect of contracts executed by the other joint venture partners pursuant to Joint Venture Agreement, is accounted under turnover in these financial statements.

m. Impairment of Assets

The carrying amount of assets is reviewed at each balance sheet date to determine if there is any indication of impairment thereof based on external / internal factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount, which represents the greater of the net selling price of assets and their

Schedule 21 SIGNIFICANT ACCOUNTING POLICIES & NOTES TO THE ACCOUNTS (Contd.)

'value in use'. The estimated future cash flows are discounted to their present value at appropriate rate arrived at after considering the prevailing interest rates and weighted average cost of capital.

n. Provision, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognised but are disclosed in the notes. Contingent assets are neither recognised nor disclosed in the financial statements.

2 HOLDING COMPANY

The Company is a 100% subsidiary of MBL Infrastructures Limited.

3 OPERATIONS

The toll collection of Build-Operate-Transfer project of Seoni-Balaghat-Gondia Road are going on smoothly.

4 MANAGEMENT DISCUSSIONS AND FUTURE OUTLOOK

BOT projects have emerged as new business model in infrastructure development of the country. There is growing awareness in the government that the massive development requirement can only be met through joint development with the private sector on user fees charge basis. Various road projects have been completed successfully throughout the country on BOT basis.

The BOT projects in the country are executed through special purpose vehicle company route where both government and private sector contribute towards the capital and balance requirement of finance is funded through banks and financial institutions.

Substantial progress was witnessed in attracting private investment in infrastructure sector. Momentum has been set for massive private investment in infrastructure industry. The government has allowed 100% FDI in this sector. Tolling operations have been going on for the entire road. We expect the tolls to improve substantially due to growth of traffic arising out of economic development of the area and various others factors.

5 FINANCE

During the year, term loans of Rs. 5000 lakhs were raised by toll securitisation and the earlier term loan was repaid.

6 DIRECTORS

Shri Anjaneer Kumar Lakhota, a Director of the Company, retires by rotation under Articles 106 of the Articles of Association of the Company and being eligible, offers himself for re-appointment.

Auditors' Report

To
The Members of

AAP INFRASTRUCTURE LIMITED

1. We have audited the attached Balance Sheet of M/s AAP Infrastructure Ltd. as at March 31, 2011, and the related Profit and Loss Account annexed thereto and Cash Flow Statement for the year ended on that date annexed thereto. These Financial Statements are the responsibility of the Company's Management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An Audit also includes assessing the Accounting Principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003 issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Companies Act, 1956, we enclose in the Annexure a Statement on the matters specified in Paragraphs 4 and 5 of the said Order.
4. Further to our comments in the Annexure referred to in paragraph (3) above, we report that :
 - a) We have obtained all the information and explanations, which, to the best of our knowledge and belief, were necessary for the purpose of our audit.
 - b) In our opinion, proper books of accounts as required by Law, have been kept by the Company so far as appears from our examination of those books.

Schedule 11 SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO THE ACCOUNTS

1. Description of Business:

Road on BOT (Build-Operate-Transfer) basis:

A 'Concession Agreement' entered into between MBL Infrastructures Ltd., AAP Infrastructure Ltd. (Jointly termed as "concessionaire") and MP Road Development Corporation (formerly Madhya Pradesh Rajya Setu Nirman Nigam Limited) conferred the rights of concession of 114 km road, to implement the project and recover the project cost, through levy of Toll Revenue over the Toll period commencing from the date of start upto a period of 5440 days. The concessionaire is required to transfer the project asset to MPRDC in accordance with the said concession agreement at the end of concession period.

2. Significant Accounting Policies :

a. Basis of Accounting

The Company maintains its accounts on accrual basis following the historical cost convention in accordance with generally accepted accounting principles ("GAAP") and in compliance with the Accounting Standards referred to in Section 211 (3C) and other requirements of the Companies Act, 1956.

b. Use of Estimates

The preparation of Financial Statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the reported amounts of income and expenses of the period and disclosure of contingent liabilities at the date of the financial statements and the result of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

c. Revenue Recognition

Fee collections from users of facilities are accounted for as and when the amount is due and recovery of which is certain. The user fees are accounted for net off operation and maintenance charges.

d. Fixed Assets and Depreciation

Intangible Assets: Carriage Ways, being right to operate and maintain highways on BOT basis is capitalised on commencement of commercial operation of homogenous section as per concession agreement. Expenditure incurred during the construction period including borrowing cost attributable to the homogenous section is proportionately allocated and is netted off proportionate capital subsidy.

Amortisation

Toll Collection Rights are amortised over the concession period. The rights are amortised based on the projected toll revenue which reflects the pattern in which the assets' economic benefits are consumed. The projected total toll revenue is based on the latest available base case traffic volume projections. If there is material change in the expected pattern of economic benefits, the amortisation is revised.

e. Retirement Benefits

Contribution to Provident Fund are accounted on actual liability basis. Leave encashment provision is made on actual liability basis. Provision for gratuity is made as per payment of Gratuity Act, 1972.

f. Borrowing Cost

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is an asset that necessarily takes a substantial period of time

to get ready for its intended use for sale. All other borrowing costs are recognized as an expense in the period in which they are incurred.

g. Taxes on Income

Provision for current tax is made after taking into consideration benefits admissible under the provision of the Income Tax Act, 1961.

The carrying amount of Deferred Tax Assets are reviewed at each Balance Sheet date. The Company writes-down the carrying amount of a Deferred Tax Asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which Deferred tax Asset can be realised. Any such write-down is reversed to the extent it become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

h. Provision, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognised but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

To

The Members of

MBL Infrastructures Limited.

- We have audited the attached Consolidated Balance Sheet of M/s MBL Infrastructures Limited ("the Company") and its subsidiary; referred to as "the Group" as at 31st March, 2011, the related consolidated Profit and Loss Account and the Consolidated Cash Flow Statement for the year ended on that date annexed thereto, which we have signed under reference to this report. These Consolidated Financial Statements are the responsibility of the Company's Management. Our responsibility is to express an opinion on these Financial Statements based on our audit.
- We conducted our audit in accordance with the auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
- We report that the Consolidated Financial Statements have been prepared by the Company in accordance with

the requirements of Accounting Standard (AS) 21- Consolidated Financial Statements notified under sub-section (3C) of Section 211 of the Companies Act, 1956.

- We report that on the basis of information and according to the explanations given to us, in our opinion, the attached consolidated financial statements give, a true and fair view in conformity with the accounting principles generally accepted in India:
 - in the case of the consolidated Balance Sheet, of the state of affairs of the Group as at 31st March, 2011;
 - in the case of the consolidated Profit and Loss Account, of the consolidated profit of the Group for the year ended on that date; and
 - in the case of the consolidated Cash Flow Statement, of the consolidated cash flows of the Group for the year ended on that date.

Schedule 21 SIGNIFICANT ACCOUNTING POLICIES & NOTES TO THE ACCOUNTS

1 Significant Accounting Policies :

a. Principles of Consolidation

The Consolidated Financial Statements comprise MBL Infrastructures Ltd. ("the Company") and its subsidiary company, AAP Infrastructure Ltd. as at 31st March, 2011 and for the year ended on that date.

The Consolidated Financial Statements have been prepared on the following basis:

- i The Financial Statements of the Company and its subsidiary are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after fully eliminating intra-company balances in accordance with the Accounting Standard 21 on "Consolidated Financial Statements" of the Companies (Accounting Standards) Rules, 2006.
- ii The Financial Statements of the subsidiary are drawn-up upto the same reporting date as that of the Company, i.e. March 31, 2011.
- iii The Consolidated Financial Statements are prepared to the extent possible using uniform accounting policies for the like transactions and other events in similar circumstances and are presented in the manner as the Company's separate Financial Statements.

b. Basis of Preparation of Financial Statements

- (i) The financial statements of the Company and its subsidiary have been prepared under the historical cost convention (other than certain Fixed Assets which are stated at revalued amount) and in accordance with the generally accepted accounting principles and the provisions of the Companies Act, 1956.
- (ii) The Company and its subsidiary follows mercantile system of accounting and recognises income and expenditure on accrual basis.

c. Use of Estimates

The preparation of Financial Statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the reported amounts of income and expenses and disclosure of contingent liabilities at the date of the financial statements and the result of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

d. Revenue Recognition

- (i) Sale is recognised on despatch of goods and net of Value Added Tax (VAT).
- (ii) In respect of construction/ project related activity, the company follows Percentage of Completion Method. Percentage of Completion is determined by survey of work performed / physical measurement of work actually completed at the Balance Sheet date taking into account Contractual Price/ Unit Rates and revision thereto.
- (iii) Revenue in respect of claims is recognised to the extent the Company and its subsidiary is reasonably certain of their realisation.
- (iv) Other operational income is recognized on rendering of related services, as per the terms of the contracts.
- (v) Other items of income are accounted as and when the right to receive arises.
- (vi) Fee collections from users of facilities are accounted for as and when the amount is due and recovery of which is certain. The user fees are accounted for net off operation and maintenance charges.

e. Each Contract is recognised as a Profit Centre. Payments/ reimbursements under the same are grouped under Direct and Other Expenses.

f. Fixed Assets and Depreciation

- (i) Fixed Assets are stated at their original cost (other than certain Fixed Assets which are stated at revalued amount). Cost includes acquisition price, attributable expenses and pre-operational expenses. Fixed Assets retired from active use are valued at net realisable value.
- (ii) Depreciation on fixed assets is provided on straight line method at the rates and in the manner prescribed in Schedule XIV to the Companies Act, 1956. In case of impairment, if any, depreciation is provided on the revised carrying amount of the assets over their remaining useful life.
- (iii) Assets acquired on Equipment Finance (hire purchase) are stated at their cash values.
- (iv) Carriage Ways, being right to operate and maintain highways on BOT basis is capitalized on commencement of commercial operation of homogeneous section as per concession agreement. Expenditure incurred during

the construction period including borrowing cost attributable to the homogeneous section is proportionately allocated and is netted of proportionate capital subsidy.

- (v) Toll Collection Rights are amortised over the concession period. The rights are amortised based on the projected toll revenue which reflects the pattern in which the assets' economic benefits are consumed. The projected total toll revenue is based on the latest available base case traffic volume projections. If there is material change in the expected pattern of economic benefits the amortisation is revised.

g. Foreign Currency Transactions

- (i) The reporting currency of the company and its subsidiary is the Indian Rupee.
 (ii) Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction.
 (iii) Monetary items denominated in foreign currencies, if any, at the end of the year are restated at year end rates.
 (iv) Non monetary foreign currency items are carried at cost.
 (v) Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Profit and Loss account.

h. Leases

The Company's significant leasing arrangements are in respect of operating leases for premises and quarries for varying periods and the lease can be renewed as per mutual agreement. The aggregate lease rents payable are charged as Rent in the Profit and Loss Account. There is no restriction or contingent rent in the lease agreements. All leases are cancelable in nature.

i. Inventories

Stock of goods is valued at cost or net realisable value whichever is lower. Cost of inventories is ascertained on FIFO basis.

j. Taxes on Income

- i) Provision for current tax is made after taking into consideration benefits admissible under the provision of the Income Tax Act, 1961.
 ii) Deferred Tax resulting from "timing difference" between book and taxable profit for the year is accounted for using the tax rates and laws that have been enacted or substantively enacted as on the Balance Sheet date. The deferred tax asset is recognised and carried forward only to the extent that there is reasonable certainty that the assets will be adjusted in future. The carrying amount of Deferred Tax Assets are reviewed at each Balance Sheet Date.

In case of unabsorbed depreciation and losses, deferred tax assets are recognised and carried forward only to the extent there is a virtual certainty that the asset will be adjusted in future.

k. Employees' Benefits

- (i) All employees benefits payable wholly within twelve months of rendering the service such as salaries, wages, short term compensated absences, etc. and the expected cost of bonus, ex-gratia are recognized in the period in which the employees render the related services.
 (ii) Retirement benefit in the form of Provident Fund is a defined contribution scheme and the contributions are charged to the Profit and Loss Account of the year when the contributions to the respective funds are accrued.
 Gratuity liability is a defined benefit obligation and is provided for on the basis of actuarial valuation made at the end of each financial year.

Short term compensated absences are provided for based on estimates. Other long term benefits being liability for leave encashment are provided for based on actuarial valuation at the year end.

Actuarial gains/losses are immediately taken to profit and loss account and are not deferred.

l. Accounting for Joint Venture Contracts

- (i) Contracts executed in joint Venture under work sharing arrangement (consortium) are accounted in accordance with the accounting policy followed by the company as that of an independent contract to the extent work is executed.
 (ii) Assets, liabilities and expenditure arising out of contracts executed wholly by the Company pursuant to a joint venture contract are recognised under respective heads in the financial statements. Income from the contract is accounted net of joint venturer's share under turnover in these financial statements.

Schedule 21 SIGNIFICANT ACCOUNTING POLICIES & NOTES TO THE ACCOUNTS (Contd.)

- (iii) Share of turnover attributable to the company in respect of contracts executed by the other joint venture partners pursuant to Joint Venture Agreement, is accounted under turnover in these financial statements.

m. Impairment of Assets

The carrying amount of assets is reviewed at each balance sheet date to determine if there is any indication of impairment thereof based on external / internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount, which represents the greater of the net selling price of assets and their 'value in use'. The estimated future cash flows are discounted to their present value at appropriate rate arrived at after considering the prevailing interest rates and weighted average cost of capital.

n. Provision, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognised but are disclosed in the notes. Contingent assets are neither recognised nor disclosed in the financial statements.
